Study on the Aerodynamic Damping of the Vibrations of Turbodynamo Vanes with Allowance Being Made for the Phase Shift of the Vibrations – A. A. Kaminer and N. Ya. Nastenko ..... 100 101

BRIEF COMMUNICATIONS

On Determining the Stressed State of Rotating Disks – V. M. Verchuk, I. A. Kozlov, V. M. Leshchenko, and A. M. Éishinskii ..... 106 106

CHRONICLES

Discussion on "Fracture of Metals" ..... 108 108

## Volume 6, Number 2 February, 1974

SCIENTIFIC AND TECHNICAL SECTION

"Pole Shift" Effect in a Study of the Temperature-Stress Dependence of Life – V. R. Regel', T. P. Sanifrova, and A. I. Slutsker..... 127 3

Dynamic Properties of the Working Wheels of Turbodynamos at High Temperature – S. I. Bogomolov..... 134 11

Effect of the Load Application Conditions on the Load-Bearing Capacity of Specimens of Sitall and Technical Glass under Compression – G. S. Pisarenko, K. K. Amel'yamovich, L. N. Podgornyi, Yu. M. Rodichev, V. G. Soluyanov, A. P. Poleshko, G. M. Okhrimenko, É. A. Krainova, and Yu. B. Bogachev .... 139 16

Conditions of Plasticity for an Anisotropically Strengthening Material – V. N. Bastun . 144 21

Accumulation of Irreversible Deformations in Thick-Walled Tubes during Thermal Cycling – P. I. Ermakov, A. F. Malygin, and B. E. Dorofeev..... 148 24

Investigation of Irreversible Phenomena during Cyclic Plastic Deformation of Alloys EI612 and EI437B at Room and Elevated Temperatures – A. E. Babenko ..... 153 28

Damage Accumulation and Failure of Metals under Complex Loading – L. B. Getsov .. 157 32

Deformation Accumulation and Change in Type of Failure for Kh18N12T Steel during Cyclic Thermal Loading – V. P. Konoplenko, V. A. Plekhanov, and V. N. Polyakov..... 164 38

The Temperature-Tensile Strength Relationship in Certain Carbon-Graphite Materials – A. L. Udovskii and N. O. Gusman..... 167 41

On Limiting-Stress Diagrams for Brittle Solids Weakened by Apertures with a System of Surface Cracks at the Boundary – A. A. Kaminskii and N. S. Sailov..... 172 46

Calculation of Stresses in a Spherical Vessel with Changes in the Thermal Field along the Meridian – B. A. Kuranov..... 177 50

Investigation of Cracks by Electrical Resistance Method. II. Calculation of the Variation in Electrical Resistance in the Initial Stage of Fracture – V. I. Vladimirov and R. G. Lupashku ..... 184 55

Crack Formation in Crystals with Inclusions – Sh. Kh. Khannanov..... 188 58

A Method of Measuring Average Rates of Supercritical Fracture of Ferromagnetic Materials – V. M. Markochev and V. D. Sizarev ..... 191 60

Effect of the Loading Scheme of Extension and Compression in High-Speed Tests – G. V. Stepanov..... 195 63

Temperature-Rate Dependence of Compressive Strains – R. I. Kuznetsov and V. I. Shilov ..... 198 66

The Effect of Relaxation of Bending Stresses on the Mechanical Properties of 12Kh1MF Steel – V. V. Osasyuk, G. P. Efimenko, and A. Z. Akhmetov ..... 203 70

The Law of Maximum Stress Distribution – D. M. Belen'kii and V. G. Ryadnov..... 206 73

INDUSTRIAL SECTION

Use of Composites in the Construction of Gas Turbine Engines – N. D. Kuznetsov, S. I. Veselov, and N. D. Stepanenko ..... 211 77

Strength of Turbine-Blade Alloys in Supersonic Gas Flows – I. N. Bogachev, Yu. G. Veksler, V. G. Sorokin, B. N. Guzanov, and V. P. Lesnikov..... 218 85

Evaluation of the Reliability of Turbomachines on the Basis of the Results of Accelerated Tests in Overloaded Regimes – Ch. L. Svetlakov, V. V. Cherkasov, and A. G. Makhnev ..... 221 88
Some Problems of the Technological Provision of Reliability of Engines in Production – E. N. Darchinov ..... 226 92
Comparison of the Fracture Toughness Characteristics of Titanium Alloys – V. G. Kudryashov, A. T. Pronin, and N. A. Vorob'ev ..... 231 96
Experimental Study of the Fatigue Characteristics of Chromium Bronze under Conditions of Thermal Cycling and Vibration – A. N. Busargin..... 235 100
Prediciting the Line of a Fatigue Crack Front – A. A. Mostovoi..... 239 104
Characteristics of the Rupture of Tubular Samples under Uniaxial Elongation – B. A. Gulyaev and V. I. Maksak ..... 243 108
Effect of Hole Machining Methods of Resistance of Aircraft Constructional Materials to Fatigue Failure – A. M. Rozenberg. O. A. Rozenberg, and V. I. Mal'nev ..... 245 108
Pulse-Echo Method of Investigating Plastic Strain – E. V. Korovkin and Ya. M. Soifer. 248 112

BRIEF COMMUNICATIONS

Strength of an Extremely Defective Crystal Structure – I. A. Gindin, V. M. Matsevityi, and Ya. D. Starodubov..... 252 115
Fatigue Strength of Thin Heat-Resistant Alloy Strip – P. G. Zykin and B. Ya. Lukin... 254 117
Accumulation of Damageability under Cyclic Loads – Yu. I. Ragozin and V. N. Kovro.. 256 118

CHRONICLES

The Third International Conference on Fracture – G. S. Pisarenko and A. A. Lebedev . 259 121
Automation of Testing of Materials and Structures – V. G. Grishko ..... 262 123

Volume 6, Number 3 March, 1974

SCIENTIFIC AND TECHNICAL SECTION

Energy Variant of the Theory of Creep and Long-Term Strength. Report 3. Creep and Long-Term Strength of Rotating Discs — O. V. Sosnin and B. V. Gorev..... 265 3
Failure of OT4-1 and D16T Alloys during Cyclic Loading over a Wide Range of Frequencies — G. G. Pisarenko, V. A. Stepanenko, and I. A. Makovetskaya .. 271 8
The Kinetics of the Change in Inelastic Cyclic Deformations in 45 and 1Kh13 Steels under Steady and Programmed Loading — Yu. I. Koval' ..... 277 14
Fatigue Resistance of Specimens of Glass-Fiber Reinforced Plastics in Air and Water — I. I. Ishchenko and I. P. Petrenko ..... 282 19
Application of the Theory of Random Functions to Fatigue Calculations — A. S. Gusev, S. S. Dmitrichenko, I. M. Ilinich, V. V. Nikonov, and I. M. Roshchin ..... 285 22
Technical Theory of Brittle Damage in Structural Elements — S. D. Volkov, G. I. Dubrovina, Yu. P. Sokovnin, and V. I. Ural'skii..... 289 26
Relationship between Short-Time Mechanical Characteristics and Long-Time Strength — V. V. Krivenyuk ..... 295 31
Determination of the Creep of Aluminum Reinforced with Steel Fibers — Yu. I. Kozub and V. Kh. Kadyrov..... 300 36
Failure Irreversibility in Solids and the Spread in Long-Term Strength Tests — T. B. Boboev, V. R. Regel', and A. I. Slutsker..... 304 40
Calculation of Stress Intensity Factors in Solids with Cracks — A. E. Andreikiv, V. V. Panasyuk, and M. M. Stadnik ..... 308 45
Calculating Stress Intensity Factors at the Ends of a Crack in the Vicinity of a Weld in a Thin Plate — S. S. Kvashnina..... 315 51
Limit Conditions for Initially Anisotropic Bodies — L. A. Tolokonnikov and N. M. Matchenko ..... 319 54
Thermoelastic Equilibrium of Shells of Complex Shape — E. A. Gotsulyak and V. I. Gulyaev..... 323 57

The Limiting State of Structure-Stable Steel under Creep Conditions for Intense Irradiation. II. Criteria for the Long-Term Strength of Austenitic Steel under High-Intensity Irradiation – V. N. Kiselevskii, B. D. Kosov, V. K. Lukashev, and G. P. Khristov . . . . . 1475 52
The Anisotropy of Crack Propagation in Stainless Steel with a Stripy Structure – A. A. Chizhik and V. G. Khotmirov . . . . . 1479 56
Fracture of Brittle Materials under Pulsating Load – Z. I. Polyakov and A. V. Vshivtsov . . . . . 1483 60
Transient Propagation of Thermoelastic Waves Produced by Thermal Shock in a Cylindrical Shell – V. I. Gulyaev and S. K. Nikitin . . . . . 1486 63
Design of a Laval Nozzle Realizing a Zero-Moment State – V. D. Koshur and Yu. V. Nemirovskii. . . . . 1490 66
Calculation of Vibrations of Plates of Complex Form with Inhomogeneous Boundary Conditions – M. M. Stratonova and G. U. Tolman . . . . . 1498 73
Calculation of Profiled Sandwich Blades of Centrifugal Blowers – V. T. Gorlyshkin and I. F. Mariichuk . . . . . 1502 77
Effect of Rate of Heating and Testpiece Thickness on the Thermal Strain of Type SSTF Glass-Fiber Laminate – G. N. Tret'yachenko and L. I. Gracheva . . . . . 1506 81

PRODUCTION SECTION

Calculation of the State of Stress in a Welded Rotor of a Steam Turbine – Yu. M. Andrianov and G. S. Vasil'chenko. . . . . 1509 84
Holographic Study of the Strain in Stress Concentrations in Full-Size Specimens – I. V. Volkov . . . . . 1516 92
Increasing the Endurance of D11 Steel under Conditions of Press Fits and a Corrosive Medium – V. K. Yatsenko, E. Ya. Korenevskii, and L. I. Ivshchenko. . . . . 1519 96
On the Determination of the Propagation of Ductile Cracks – L. S. Moroz and N. N. Bokman. . . . . 1522 99
*Anomalous Growth in Plasticity in Stable and Metastable Austenitic Steels* – S. L. Voitselenok, A. V. Lysyak, and V. A. Burnos . . . . . 1529 105
*Effect of Condensed Films on Fatigue Strength of Metals* – A. I. Il'inskii, L. S. Palatnik, I. V. Navrotskii, Yu. A. Pokhil, and N. P. Sapelkin. . . . . 1532 108
Resistance to Fracture of a Zirconium Alloy Containing 2.5% Nb – A. M. Vasnin, V. Yu. Gol'tsev, V. M. Markochev, and E. Yu. Rivkin . . . . . 1535 111
